DEFERMENT OF STUDIES

- Student must FILL in the [Deferment Form](#) and submit the COMPLETED form to **Faculty**. The form can be browsed at AMACs website.
- Deferment because of [military/medical reasons](#) **WILL NOT BE COUNTED** in the duration of study.
- Students may also apply for deferment of studies due on unavoidable work and career needs, responsibilities and duties related to the interests of the University or Country as well as natural disasters and wars and **WILL NOT BE COUNTED** in the duration of study as well.
- The maximum allowable period is only **two (2) years, four (4) semesters**. For each application of deferment, the University will approve maximum for two (2) semesters and the student may apply for continuation if required, subject to a maximum of 4 semesters.
- For other reason, deferment will be calculated from duration of study. Students are **not allowed to postpone the study for more than 2 consecutive semesters**. Students who failed to register after the deferment of 2 consecutive semesters, may be terminated.
- Maximum semesters for Master is **8 semesters (4 years)**

CREDIT TRANSFER

- **Vertical credit transfers are not allowed** in postgraduate studies. Credit transfer in postgraduate studies only involves horizontal credit transfers.
- Students may apply for a Credit Transfer with Grade (students who are still studying) in the first semester of the study by submitting relevant documents.
- Only courses that are equivalent to courses at UTM and **pass at least the equivalent to grade B-** can be considered.
- Credit transfer is permitted for a **course containing curriculum content that is at least 80% same.**
- The allowable **Horizontal Credit Transfer Limit is 50% of the maximum credit** of the course work component for the programme being followed.
- Course for credit transfers are only allowed for the courses taken within the previous 3 years from graduation and that have at least 80% same curriculum content.

ATTENDANCE

- Student is required to attend all classes scheduled for the course including those courses with the status of HW and HS. A student whose attendance is **less than 80% will be barred from the final examination.** The registration for HS course will be removed if the attendance is less than 80%.

 - Master's Project 1
 - Master's Project 2
- Supervised by at least ONE of the graduate staff.

ABSTRACT

An Analysis of Yukon Delta Salmon Management Rita Asgeirsson, eastern Washington University The broad range of Pacific Alaskan salmon has resulted in the creation of a complex and multiorganizational system of management that includes the state of Alaska, various federal partments, a Congressionally-mandated fishery council, and a number of commercial and nongovernmental fish organizations. In the Bering Sea salmon are caught by the commercial groundfish fleet as by-catch. On the Yukon River salmon are commercially and traditionally harvested for both economic and cultural sustenance by the Yup'ik residents of the Yukon Delta. Declining salmon populations has driven scientific research which considers the effects of Bering Sea salmon by-catch. My research findings indicate that Bering Sea fisheries occur where juvenile salmon mature, directly impacting Yukon River salmon populations. Further, the research reflects that although Yukon salmon populations have plummeted, a recent effort was made to open the northern Bering Sea, which includes the Yukon River coastal shelf, to deep-sea commercial fishing. By researching the relationship of policy to cultural salmon dependence, it becomes evident that Alaskan salmon-tribes are excluded from salmon management and decision-making. Legal research reflects that three basic federal Indian concepts – inherent rights, Indian Country, and tribal right of occupancy – emerge as potential foundations that may allow Alaskan salmontribes to begin sharing legal responsibility over salmon. Yukon River salmon are an international and anadromous species that require multiorganizational management. My research reflects that current management favors the Bering Sea commercial fishing industry, despite data indicating Bering Sea fisheries impact Yukon salmon populations and an overall downward trend in Yukon salmon populations.
